

Purposeful Hourly Rounding

Daily Reminder Card, 4Q-2021

Purpose: created 70 plaquard cards based on evidenced-based research supporting 6's of Rounding (front) and Patient Questions (back) as part of the adoption of C3 floor of nurses and clinical assistants hourly patient interaction.

Goal: help reduce fall incidence and activey engage patient motivation in plan of care while at hospital. Patients who more cognitively understand they could fall, or would otherwise benefit from assistance, have a higher likliehood of reciprocating and communicating their needs.
